Mr. Sam Ayo,
Human Resource manager
LJINig Agro-Allied Limited
7 Atunwa street,
Opebi,
Lagos.

Dear Mr. Sam,

As a highly skilled crop scientist with a passion for agriculture, I was thrilled when I read your job posting on the newspaper for a new skilled crop scientist. Presently, I am a senior crop scientist with over 6 years' experience. I am registered with the state board of soil scientist in Lagos and have a Bachelor's degree in soil and crop science from the University of Nigeria Nssuka.

My experience in agriculture, I am proficient in sustainability, strategic planning, and system management. My on-the-job experience has afforded me a well- rounded skill set including first hand prioritization and project management abilities. I excelled at;

- Finding solutions to crop out reductions
- Inspecting planting and ensuring compliance with regulations
- Overseeing vendor contracts for planting, thinning and other functions
- Supervise and execute soil research and testing

In addition to my experience and qualification in crop science, I have a strong passion for soil science and crop management. I am extremely excited about LJINig. Agro-Allied Limited focus on soil sustainability and healthy crop production, and I would be glad to be given the opportunity to contribute to your success in this area of agriculture.

I will be happy to be given the opportunity to discuss how I can be of great assistance to the company to achieve its vision in healthy crop production and management.

I appreciate your time and consideration.

Sincerely,

Joseph James
